

QuickBooks Enterprise Platinum includes:

- **QuickBooks Enterprise software** – this is the core software that runs your business. Just like Pro, or Premier, this software is desktop based and either installed on local computers and servers, or it can be hosted in the cloud to provide anytime, anywhere access (separate fees apply for hosting). QuickBooks Enterprise is NOT an online version of QuickBooks, and is NOT the same as the QuickBooks Online product. QuickBooks Enterprise and QuickBooks Online are completely different offerings.

- **Full Service Plan** – the Full Service Plan (or FSP for short) provides the following:

- Expert Support
- Data Recovery Services
- Exclusive members only website
- Automatic product upgrades (assuming active subscription is in place)
- Mastering QuickBooks Desktop Enterprise Training Tools

- **Advanced Reporting** – Advanced Reporting makes it easy to run your most critical business reports. Industry-bundled templates for manufacturers, wholesalers, contractors, and retailers help you quickly find the right report. Template reports auto-filled with your company data save you time. Plus, our robust help portal offers the reporting answers you need, when you need them

- **Enhanced Payroll** – Enter hours, get instant paychecks or free direct deposit. Federal and state taxes are calculated for you – just click to e-pay. Automatically fills in federal and most state tax forms – click to e-file

- **Advanced Inventory** – This module allows for:

- Bin location tracking
- Lot OR serial number tracking
- Track inventory across multiple locations
- Transfer inventory between sites
- FIFO inventory costing
- Limited barcoding functionality

- **Advanced Pricing** – Exclusively for QuickBooks Desktop Enterprise Platinum, Advanced Pricing lets you control, customize, and automate your pricing, right within QuickBooks. No more manual updates – now you can easily change your prices to keep your bottom line upwardly mobile.
